

1 2 3 4 5 6 7 8 9

Review by drawing the dots and circles on the numbers above according to what you learned in the video. Count out loud as you do this.

To add using the dots, say the first number and count up from that number as you touch *where the dots would* go on the second number. (Even if you already know the answer, practice using the dots.)

Example: $5 + 3 = \underline{\quad}$ "Five." "Six, seven, eight."

3	8	9	6	7	4	5
<u>+4</u>	<u>+5</u>	<u>+3</u>	<u>+2</u>	<u>+7</u>	<u>+6</u>	<u>+8</u>

7	9	8	3	6	4	5
<u>+1</u>	<u>+9</u>	<u>+6</u>	<u>+8</u>	<u>+7</u>	<u>+9</u>	<u>+2</u>

1 2 3 4 5 6 7 8 9

With your pencil, touch the imaginary dots and circles on the numbers above, counting out loud while you do.

To add a one-digit number to a two-digit number, say the two-digit number and count UP on the dots on the one-digit number. (Touch where the dots *would* be without drawing them.)

Example: $25 + 2 =$ _____ "Twenty-five." "Twenty-six, twenty-seven."

17	28	63	47	82	34	76
<u>+1</u>	<u>+9</u>	<u>+6</u>	<u>+8</u>	<u>+7</u>	<u>+3</u>	<u>+5</u>

17	38	23	55	73	94	86
<u>+2</u>	<u>+4</u>	<u>+9</u>	<u>+6</u>	<u>+5</u>	<u>+7</u>	<u>+8</u>

1 2 3 4 5 6 7 8 9

Draw the dots on the numbers above, counting out loud while you write them.

As explained in the video, to subtract using the dots, say the top number and count DOWN from that number as you *point to where the dots would be* on the bottom number. (Even if you already know the answer, practice using the dots.)

Example: $5 - 3 = \underline{\quad}$ "Five." "Four, three, two."

4	8	9	16	7	8	9
<u>-3</u>	<u>-5</u>	<u>-1</u>	<u>-2</u>	<u>-4</u>	<u>-7</u>	<u>-6</u>

7	12	13	15	14	18	10
<u>-2</u>	<u>-9</u>	<u>-6</u>	<u>-8</u>	<u>-7</u>	<u>-9</u>	<u>-6</u>

1 2 3 4 5 6 7 8 9

With your pencil, touch the imaginary dots and circles on the numbers above, counting out loud while you do.

To subtract a one-digit number from a two-digit number, touch and say the two-digit number with your pencil and count DOWN on the dots on the one-digit number.

Example: $25 - 2 =$ _____ "Twenty-five." "Twenty-four, twenty-three."

17	28	63	47	82	34	76
<u>-4</u>	<u>-9</u>	<u>-6</u>	<u>-8</u>	<u>-7</u>	<u>-3</u>	<u>-5</u>

17	38	23	55	73	94	86
<u>-2</u>	<u>-4</u>	<u>-9</u>	<u>-6</u>	<u>-5</u>	<u>-7</u>	<u>-8</u>
