

On the blanks, write the number with its dots as shown on the video. Count the dots out loud as you draw each dot (and the circles for numbers 6-9). Memorize this system.

1 \_\_\_\_\_

2 \_\_\_\_\_

3 \_\_\_\_\_

4 \_\_\_\_\_

5 \_\_\_\_\_

6 \_\_\_\_\_

7 \_\_\_\_\_

8 \_\_\_\_\_

9 \_\_\_\_\_

Practice drawing the dots on the numbers, counting out loud while you write them.

1 2 3 4 5 6 7 8 9

1 2 3 4 5 6 7 8 9

1 2 3 4 5 6 7 8 9

Now count on the numbers WITHOUT drawing the dots. Touch your pencil to where the dots and circles WOULD go, counting out loud while you touch them with your pencil.

1 2 3 4 5 6 7 8 9

Once you have memorized this, try doing it faster. Ask someone to set a timer for you as you start counting the dots on one through nine. Can you beat your time?
